SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

C.1 SCOPE

C.1.1 The contractor shall provide manufacturing, production, inspection, and delivery of G-16 Cargo Parachute and supplies.

C.2 TECHNICAL DATA PACKAGE INFORMATION

The following Xd item applies to this solicitation:

- [ ] 1. There is no Technical Data Package (TDP) included with this solicitation.
- [ X ] 2. The TDP for this solicitation resides within the System for Award Management (SAM) (<https://SAM.gov>) associated with this solicitation number:

W912CH-24-R-0080

To access the data through SAM:

- a. Log on to the SAM web site: <https://SAM.gov>.
- b. Search for the solicitation number.
- c. Click on the attachment you would like to view.
- d. If the attachment is restricted, request access to the document.

- (1) TDPs that have an Export Control Warning Notice are subject to the Arms Export Control Act (Title 22, U.S.C., Sec 2751, et.seq.) or the Export Control Reform Act of 2018 (Chapter 58 Sections 4801-4852 of Title 50, United States Code).
- (2) Further dissemination of technical data must be in accordance with provisions of DoD Directive 5230.25, DoDI 5230.24, its Distribution Statement markings, and U.S. export control laws. This also applies to distribution of the TDP to all SUBCONTRACTORS at every level.
- (3) To obtain these TDPs, contractors must have a current DD 2345, Militarily Critical Technical Data Agreement on file with Defense Logistics Information Service (DLIS). To obtain certification, go to <https://public.logisticsinformationservice.dla.mil/jcp/search.aspx>
- (4) Upon completion of the purposes for which Government Technical Data has been provided, the Contractor is required to destroy all documents, including all reproductions, duplications, or copies thereof as may have been further distributed by the Contractor. Destruction of this technical data shall be accomplished by: shredding, pulping, burning, or melting any physical copies of the TDP and/or deletion or removal of downloaded TDP files from computer drives and electronic devices, and any copies of those files.
- e. If technical data is otherwise restricted, select Request Explicit Access. This will generate an email to the Contract Specialist and Contracting Officer at Army Contract Command - Warren (DTA) with all the information needed to grant contractor access to restricted documents. SAM will automatically generate an email stating when the requesting contractor has permission to view or download TDP items.
- f. If multiple individuals in the contractors organization need access to the Technical Data Package (TDP) for a solicitation and an explicit access request is required, each individual MUST submit an explicit access request to be granted approval to view the TDP. Those same individuals MUST be registered in SAM. Any individuals no longer with the company should be deleted. Questions related to registration in SAM should be directed to <https://www.sam.gov/>. The SAM helpdesk phone number is (866) 606-8220. Vendors are responsible for placing correct information in SAM.
- g. It is strongly suggested that contractors submit the explicit access request and provide the buyer with the completed Use and Non-Disclosure Agreement at the same time if the solicitation requires both to gain access to view the TDP.

C.3 START OF WORK MEETING

- C.3.1 The contractor shall hold a start of work meeting at its facility, unless some other location is designated in the contract, within 30 days after contract award. The Start of Work Meeting is to assure a clear and mutual understanding of the contract terms, conditions, line items, technical requirements and sequence of events needed for successful execution of the subject contract effort. The contractor shall prepare and deliver an agenda and provide minutes for the meeting.
- C.3.2 The contractor shall at a minimum invite Government contracting personnel (PCO/Contract Specialist); Government technical personnel including the Contracting Officer's Representative (COR) identified in Section G or in an appointment letter; Quality Assurance personnel; DCMA; etc. All Government invitees shall be given at least 14 days advance notice of the time, date, and location

For this reason, the Contractor shall identify information contained in the proposal that the Contractor specifically does not want to be incorporated by reference. Any changes in these arrangements are to be submitted to the Contracting Office in advance for approval. In the event of any conflict or ambiguity between the Contractor's Technical Proposal and the Government's Statement of Work (SOW), the Government's SOW shall govern.

C.3.6 The contractor shall make available if needed to Government representative(s) the documentation for production planning, manufacturing methods and controls, material and manpower resource allocation, production engineering, quality control and assurance program, production management organization, and controls over major subcontractors within five calendar days upon request.

**C.4 DRAWING LIMITATIONS**

C.4.1 The drawings supplied with this contract are not shop or process drawings. The drawings are engineering design drawings, are adequate to permit manufacture, and:

C.4.1.1 depict the completed (item(s), and

C.4.1.2 serve as the basis for inspection of the completed item(s).

C.4.2 These drawings DO NOT cover intermediate drawings/specifications or steps in the manufacturing process. As a result, even if all the dimensions and tolerances specified in the engineering design drawing for each individual part are met, a cumulative unacceptable fit for the contract item could result.

C.4.3 The Contractor agrees that he has obtained all specifications and drawings necessary to manufacture the items being solicited in accordance with the TDP including all incorporated specifications and drawings. The contractor is responsible for having all drawings and specifications. Delivery delays are not excusable where the contractor asserts that it did not have a specification or drawing and has failed to request, in writing, the specification from either the Contracting Officer or Contract Specialist prior to the solicitation closing date.

C.4.4 Failure to produce an end item with a cumulative fit that conforms to Government drawings, specifications or other supplemental manufacturing documentation, will result in the Contractor being responsible for correcting this condition at no additional cost to the Government and no delivery schedule extension.

**C.5 CONFIGURATION MANAGEMENT DOCUMENTATION**

C.5.1 The Contractor may submit Engineering Change Proposals (ECPs), Requests for Variance (RFVs), and Notices of Revision (NORs) for the requirements in the Government-provided Technical Data Package (TDP).

C.5.2 The Configuration Change Management section of SAE EIA-649-1 (current revision) Configuration Management Requirement for Defense Contracts, Paragraph 3.3, shall be used for configuration control of material with the following exclusions: paragraph 3.3(3); and the second sentence of paragraph 3.3.1.8.1(1).

C.5.3 Furnished item(s) shall conform to the approved configuration requirements/revision unless an RFV is processed and approved as provided by Paragraph C.5.6. The term "Request for Variance" includes Requests for Deviations and Waivers.

C.5.4 Value Engineering Change Proposals (VECPs) for cost saving improvements to the TDP should not be processed per SAE EIA-649-1 (current revision) and should be referred to Section I Clause 52.248-1 VALUE ENGINEERING.

C.5.5 All ECPs submitted will be deemed routine. The Contractor must include justification for an ECP it considers emergency or urgent in the submittal and include all supporting documentation.

**Name of Offeror or Contractor:**

C.5.6 For ECPs, RFVs, and NORs, the Contractor must submit the documentation listed in sub-paragraphs C.5.6.1 through C.5.6.3. Failure to submit a complete legible package may result in return of the ECP/RFV/NOR without processing.

C.5.6.1 for ECPs, the Contractor shall prepare and deliver the ECP in accordance with (IAW) CDRL A002.

C.5.6.2 for RFVs, the Contractor shall prepare and deliver the RFV IAW CDRL A003.

C.5.6.3 for NORs, the Contractor shall prepare and deliver the NOR IAW CDRL A004.

C.5.7 The Governments acceptance of the data deliverable required by CDRL/DD Form 1423 in C.5.6.1 through C.5.6.3 above signifies only that the data satisfies the requirements of the DID and is considered acceptable for Government processing. Acceptance of the data deliverable does not signify "technical approval" of the change proposed by the deliverable and should not be interpreted as authorizing the Contractor to proceed with the work proposed by the change. Disposition of the change (approval/disapproval) will follow acceptance of the CDRL at the Governments sole discretion. Incorporation of an approved RFV or ECP will require execution of a contract modification.

C.5.8 The Contractor should direct questions regarding the status of an ECP or RFV to the Procuring Contracting Officer (PCO), copy to the Administrative Contracting Officer (ACO).

C.5.9 The submission of an ECP/RFV/NOR does not affect the required delivery date of the contract.

#### C.6 NOTIFICATION OF CHANGE

C.6.1 Material and Material Supplier Changes. The Contractor shall notify the Government at least 30 days in advance of any changes in material, material suppliers, manufacturing processes (including quality control), or plant location. Also, the Contractor shall ensure that produced end items conform to specified product and quality requirements and shall immediately report any deviation in form, fit, or function of items produced. The contractor shall submit an RFV in accordance with section C.5 for approval prior to implementing any changes.

C.6.2 Manufacturing Process Changes. A change in the process flow reviewed by the Government during inspection, such as combining operations or using additional/different equipment, constitutes a manufacturing process change. Any change in location or ownership of the plant where a previously qualified product was manufactured requires reevaluation of the qualification and approval from the Contracting Officer. Routine maintenance and the switching of comparable equipment are not considered a process change. The contractor shall submit an RFV in accordance with section C.5 for approval prior to implementing any changes.

#### C.7 REQUIREMENT FOR AN OPSEC STANDING OPERATION PROCEDURE/PLAN

C.7.3 The contractor shall identify an individual who will be an OPSEC Coordinator. The contractor will ensure that this individual is OPSEC Level I.

C.7.4 The contractor is not required to produce an OPSEC Plan. U.S. contractors with access to CUI (e.g. technical information, information marked with a distribution statement or CUI or classified information shall be required to follow an OPSEC Plan. The contract may choose to follow the TACOM OPSEC plan in lieu of developing a new OPSEC plan. Personnel who have taken the approved OPSEC training within the last 12 months shall be considered compliant.

#### C.8 OPSEC TRAINING REQUIREMENT

(a) The contractor shall comply with the higher-level quality standard(s) listed below.

ISO 9001:2015

(b) The contractor shall include applicable requirements of the higher-level quality standard(s) listed in paragraph (a) of this clause and the requirement to flow down such standards, as applicable, to lower-tier subcontracts in--

- (1) Any subcontract for critical and complex items (see 46.203(b) and (c)); or
  - (2) When the technical requirements of a subcontract require--
    - (i) Control of such things as design, work operations, in-process control, testing and inspection; or
    - (ii) Attention to such factors as organization, planning, work instructions, documentation control, and advanced metrology.
- (End of clause)

E.1 USE OF MIL-STD 1916

(a) The Government will not accept lots whose samples submitted for acceptance contain non-conformances unless appropriately documented and approved by the contracting officer. The contractor shall use MIL-STD 1916, DOD Preferred Methods of Acceptance of Product. The Verification Level (VL) shall be IV for major characteristics and II for minor characteristics.

(b) MIL-STD HDBK-1916 provides guidance on the use of MIL-STD 1916. This handbook is not contractually binding.

E.2 NOTICE REGARDING FIRST ARTICLE TEST SAMPLE

(a) The approved first article items, as described elsewhere in this contract, consist of a quantity of zero (0) that will be consumed or destroyed in testing. Any items consumed or destroyed in testing shall not be delivered as part of the contractually required quantity as set forth in the schedule. The cost of any items that are consumed or destroyed shall be included in the overall offer or contract price. A quantity of one (1) that successfully passes all specified tests, less the destructive tests, if any, shall serve as a manufacturing standard for the remainder of the contract.

(b) A manufacturing standard is an item, which conforms to all technical performance requirements. A manufacturing standard will serve as 1) an aid in identifying configuration changes not controlled by the contractual design. 2) an aid in identifying any process changes, or 3) the approved workmanship sample, when required, unless alternate samples are submitted for specific characteristics by the Contractor and approved by the Government.

(c) The manufacturing standard will only be used to supplement contractual acceptance/rejection criteria for those process characteristics that require approved workmanship samples. For other characteristics, if configuration or process changes are identified in production units, the contractor will notify the contracting officer for disposition. Manufacturing items that serve as a manufacturing standard may be delivered as part of the contractual quantity with the last shipment made under this contract provided it meets all contractual requirements existing at time of delivery.

E.3 INSPECTION AND ACCEPTANCE (FIRST ARTICLE APPROVAL)

In addition to inspection requirements specified in applicable drawings and/or specifications, the following provisions shall apply to this contract:

(a) FIRST ARTICLE APPROVAL-CONTRACTOR TESTING: First Article Approval-Contractor Testing shall be performed in accordance with:

(b) The First Article Test Report (FATR), shall be compiled by the contractor to the contractor's own format. The FATR shall document the results of all inspections and tests (including supplier's and vendor's inspection records and certifications, when applicable). The FATR shall include actual inspections and test results to include all measurements, recorded test data, and certifications (if applicable) keyed to each drawing, specification and Quality Assurance Provision (QAP) requirement and identified by each individual QAP characteristic, drawing/specification characteristic and unlisted characteristic. The FATR shall contain sufficient narrative content, technical data, illustrations or photographic evidence, and an objective determination by the contractor to allow the designated Government representative to determine that the First Article Test was successfully completed.

E.5 NOTICE REGARDING FIRST ARTICLE

- (a) Notwithstanding the provisions for waiver of first article, an additional first article sample (or portion thereof) may be ordered by the Contracting Officer in writing when (i) a major change is made to the technical data, (ii) whenever there is a lapse in production for a period in excess of one year, or (iii) whenever a change occurs in place of performance, manufacturing process, material used, drawing, specification or source of supply.
- (b) When any of the conditions above occurs, the Contractor shall notify the Contracting Officer so that a determination can be made concerning the need for the additional first article sample (or portion thereof), and instructions can be provided concerning the submission, inspection, and notification of results.

(c) Costs of any additional testing and inspection resulting from conditions specified above shall be borne by the Contractor, unless the change was directed by the Government. Further, any production delays caused by additional testing and inspection will not be the basis for an excusable delay as defined in the default clause of this contract. Such delays shall not form the basis for adjustment in contract price or delivery schedule.

E.6 TECHNICAL DATA FOR INSPECTION

- (a) When requested, the Contractor shall make available to the Government Inspector, the drawings, specifications, and any applicable Engineering Exceptions (e.g., ECPs, RFVs, NORs) associated to the technical data and authorized by the Government, to which the product was manufactured. Upon completion of product inspection and acceptance by the Government Inspector, all drawings, specifications and Engineering Exceptions, will be returned to the Contractor.
- (b) If the contractor is not the actual manufacturer of the item being procured (i.e. dealer, distributor, etc.) the contractor shall ensure that subcontractor technical data is available for review to support the Government's inspection requirements.

E.7 ALTERNATIVES TO LOT ACCEPTANCE SAMPLING (INCLUDING STATISTICAL PROCESS CONTROL (SPC))

- (a) Offerors are encouraged to propose a defect prevention strategy in lieu of lot acceptance inspection and testing requirement cited in the technical data package. The Government recognizes that industry has developed numerous prevention-based strategies which result in reduced process variation and promote continuous process improvement initiatives. Use of alternatives to lot acceptance sampling can provide offerors the latitude of implementing prevention-based programs that are suitable to their particular mode of operation. Offerors are encouraged to submit their alternative proposals prior to award. Although the Government will entertain post award requests, there is no guarantee such requests will be accepted.
- (b) Requests to use alternatives to lot acceptance sampling shall be provided to the Contracting Officer for review and approval or disapproval. Such request shall include:
- (1) Identification of the specific inspections and tests to be reduced or eliminated.
  - (2) A description of your prevention-based program. This should include such topics as training program and the performance of audits.
  - (3) A description of the tools used to monitor and control the specific processes being evaluated. This should include such topics as criteria for determining out of control conditions and procedures to be used when an out-of-control condition is detected.
  - (4) The results of a process performance study, and if available, the results of a process capability study.
  - (5) For SPC data to be used as an alternative to lot acceptance sampling, the following conditions shall be met:
    - (i) The process is in a state of statistical control using SPC control chart methods.

(iii) Attribute data: for Critical Characteristics a process average of 100% of the product conforming to the specification; for Major characteristics a process average of 99.9937% of the product conforming to the specification.

(c) Proposals offered after award. The Contracting Officer is responsible for accepting or rejecting the alternate lot acceptance procedure submitted by the contractor. The contractor may submit an alternate lot acceptance procedure at any time during the performance of this contract. The Contracting Officer is responsible for accepting or rejecting the alternate procedure within 30 days of receipt. If the Government needs more time evaluate the alternate procedure, the Contracting Officer shall notify the contractor in writing, giving the reasons and the anticipated decision date. The contractor may withdraw its proposal at any time prior to its incorporation by contract modification. Because offerors may withdraw their proposal at any time, the Contracting Officer's failure to timely accept or reject the proposal shall not constitute grounds for claim against the Government. If any proposed procedure is not accepted, the Contracting Officer shall provide the contractor with written notification, explaining the reasons for rejection.

(d) Any equitable adjustment resulting from approval of an alternate lot acceptance procedure described in paragraph (c) above will be handled in accordance with the Changes clause of this contract.

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractors date of receipt of the contract or notice of award by adding

(1) five calendar days for delivery of the award through the ordinary mails, or

(2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term working day excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

H.3 Army Contract Writing System (ACWS) Transition Information for Contractors

a. The Army Contracting Enterprise (ACE) is in the process of deploying new solicitation and contract writing software to Army contracting offices worldwide. Known as the Army Contract Writing System (ACWS), this modern software suite will soon replace most existing Army contract writing systems, including the system used to create and release this Contract.

b. During this transition period, Contractors are hereby advised:

1. The Contracting Office may use any combination of contract writing systems to generate distributable copies of this contract during its period of performance, as well as any subsequent modifications or orders (if applicable). As a result:

i. Subsequent documents you receive may appear noticeably different than the original award or previous contractual documents from the same Contracting Office.

ii. A change between contract writing systems may cause important information concerning contract terms and conditions to take on different formatting or appear in different parts of later documents issued.

iii. Contractors shall ensure Customer Relationship Management (CRM) systems and personnel interacting with this contract are prepared to identify and respond appropriately to differences between document versions.

2. The Government does not intend to use the shift between contract writing systems to effect any changes to Contract terms and conditions. Therefore:

i. Contractors should view changes to terms or conditions between document versions as system-generated and potentially erroneous unless accompanied by narrative(s) designating such changes as deliberate and desired.

ii. Contractors shall inform the Contracting Officer listed on the first page of the most recent document issued for guidance regarding any suspected or observed inadvertent or system-generated changes (e.g. noticing something missing in a new conformed copy).

iii. The Government will correct any inadvertent or system-generated changes, additions, or omissions discovered by either party, via bilateral modification, at no cost to the Contractor.

iv. The terms and conditions contained in the latest document reflecting deliberate action by the Contracting Officer (e.g. the last conformed copy of the award not affected by the observed issue) will take precedence until these problems are corrected.

3. In the unlikely event award information is corrupted or mutilated during system migration and replacement or re-issuance of this contract is necessary for continued contract administration, the Contracting Officer will:

i. Issue a continuation contract in accordance with DFARS 204.1601(c) and DFARS PGI 204.1601(c), carrying over all terms and conditions from the last-known version of this contract accurately reflecting mutual agreement of the parties.

ii. Incorporate the last-known version of this contract accurately reflecting mutual agreement of the parties as an attachment to the replacement or continuation contract for future reference.

iii. Ensure any such reissuance or continuance is properly reported to preserve the integrity of Contractor performance measurement data, if any (e.g. FAPIIS, CPARS).

I-104	52.209-1	QUALIFICATION REQUIREMENTS	FEB/1995

(a) Definition. Qualification requirement, as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

(Name) usarmy.detroit.tacom.mbx.mso-ombudsman@army.mil

(Address) 6501 E. 11 Mile Rd., MS 322 ATTN: AMSTA-CSC-M, Detroit Arsenal, MI 48397-5000

(c) If an offeror, manufacturer, source, product or service covered by a qualification requirement has already met the standards specified, the relevant information noted below should be provided.

Offerors Name \_\_\_\_\_

Manufacturers Name \_\_\_\_\_

Sources Name \_\_\_\_\_

Item Name \_\_\_\_\_

Service Identification \_\_\_\_\_

Test Number \_\_\_\_\_ (to the extent known)

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Governments best interests.

(e) If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Governments interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

<b>Name of Offeror or Contractor:</b>		

- (a) The Contractor shall test 1 unit(s) of Lot/Item 0011 as specified in this contract. At least 20 calendar days before the beginning of first article tests, the Contractor shall notify the Contracting Officer, in writing, of the time and location of the testing so that the Government may witness the tests.
- (b) The Contractor shall submit the first article test report within 180 calendar days from the date of this contract to the Contracting Officer indicated on Page 1 marked First Article Test Report: Contract No. \_\_\_\_\_, Lot/Item No. 0141. Within 30 calendar days after the Government receives the test report, the Contracting Officer shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite reasons for the disapproval.
- (c) If the first article is disapproved, the Contractor, upon Government request, shall repeat any or all first article tests. After each request for additional tests, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The Contractor shall then conduct the tests and deliver another report to the Government under the terms and conditions and within the time specified by the Government. The Government shall take action on this report within the time specified in paragraph (b) above. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these tests.
- (d) If the Contractor fails to deliver any first article report on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.
- (e) Unless otherwise provided in the contract, and if the approved first article is not consumed or destroyed in testing, the Contractor may deliver the approved first article as part of the contract quantity if it meets all contract requirements for acceptance.
- (f) If the Government does not act within the time specified in paragraph (b) or (c) above, the Contracting Officer shall, upon timely written request from the Contractor, equitably adjust under the changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.
- (g) Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to this contract for
- (1) progress payments, or
- (2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.
- (h) The Government may waive the requirement for first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the offeror/contractor and have been accepted by the Government. The offeror/contractor may request a waiver.
- (i) The Contractor shall produce both the first article and the production quantity at the same facility.

I-111                      52.232-16                      PROGRESS PAYMENTS (MAR 2020)                      (DEVIATION 2020-00010)                      NOV/2021  
The Government will make progress payments to the Contractor when requested as work progresses, but not more frequently than monthly, in amounts of \$2,500 or more approved by the Contracting Officer, under the following conditions:

(a) Computation of amounts.

(1) Unless the Contractor requests a smaller amount, the Government will compute each progress payment as 80 percent of the Contractor's total costs incurred under this contract whether or not actually paid, plus financing payments to subcontractors (see paragraph (j) of this clause), less the sum of all previous progress payments made by the Government under this contract. The Contracting Officer will consider cost of money that would be allowable under FAR 31.205-10 as an incurred cost for progress payment purposes.

(2) The amount of financing and other payments for supplies and services purchased directly for the contract are limited to the amounts that have been paid by cash, check, or other forms of payment, or that are determined due and will be paid to subcontractors

(i) In accordance with the terms and conditions of a subcontract or invoice; and

(ii) Ordinarily within 30 days of the submission of the Contractor's payment request to the Government.

(3) The Government will exclude accrued costs of Contractor contributions under employee pension plans until actually paid unless-

(i) The Contractor's practice is to make contributions to the retirement fund quarterly or more frequently; and

(ii) The contribution does not remain unpaid 30 days after the end of the applicable quarter or shorter payment period (any contribution remaining unpaid shall be excluded from the Contractor's total costs for progress payments until paid).

(4) The Contractor shall not include the following in total costs for progress payment purposes in paragraph (a)(1) of this clause:

(i) Costs that are not reasonable, allocable to this contract, and consistent with sound and generally accepted accounting principles and practices.

(ii) Costs incurred by subcontractors or suppliers.

(iii) Costs ordinarily capitalized and subject to depreciation or amortization except for the properly depreciated or amortized portion of such costs.

(iv) Payments made or amounts payable to subcontractors or suppliers, except for-

(A) Completed work, including partial deliveries, to which the Contractor has acquired title; and

(B) Work under cost-reimbursement or time-and-material subcontracts to which the Contractor has acquired title.

(5) The amount of unliquidated progress payments may exceed neither (i) the progress payments made against incomplete work (including allowable unliquidated progress payments to subcontractors) nor (ii) the value, for progress payment purposes, of the incomplete work. Incomplete work shall be considered to be the supplies and services required by this contract, for which delivery and invoicing by the Contractor and acceptance by the Government are incomplete.

(6) The total amount of progress payments shall not exceed 80 percent of the total contract price.

(7) If a progress payment or the unliquidated progress payments exceed the amounts permitted by subparagraphs (a)(4) or (a)(5) above, the Contractor shall repay the amount of such excess to the Government on demand.

(9) The costs applicable to items delivered, invoiced, and accepted shall not include costs in excess of the contract price of the items.

(b) Liquidation. Except as provided in the Termination for Convenience of the Government clause, all progress payments shall be liquidated by deducting from any payment under this contract, other than advance or progress payments, the unliquidated progress payments, or 80 percent of the amount invoiced, whichever is less. The Contractor shall repay to the Government any amounts required by a retroactive price reduction, after computing liquidations and payments on past invoices at the reduced prices and adjusting the unliquidated progress payments accordingly. The Government reserves the right to unilaterally change from the ordinary liquidation rate to an alternate rate when deemed appropriate for proper contract financing.

(c) Reduction or suspension. The Contracting Officer may reduce or suspend progress payments, increase the rate of liquidation, or take a combination of these actions, after finding on substantial evidence any of the following conditions:

- (1) The Contractor failed to comply with any material requirement of this contract (which includes paragraphs (f) and (g) below).
- (2) Performance of this contract is endangered by the Contractor's (i) failure to make progress or (ii) unsatisfactory financial condition.
- (3) Inventory allocated to this contract substantially exceeds reasonable requirements.
- (4) The Contractor is delinquent in payment of the costs of performing this contract in the ordinary course of business.
- (5) The fair value of the undelivered work is less than the amount of unliquidated progress payments for that work.

(1) Title to the property described in this paragraph (d) shall vest in the Government. Vestiture shall be immediately upon the date of this contract, for property acquired or produced before that date. Otherwise, vestiture shall occur when the property is or should have been allocable or properly chargeable to this contract.

(2) Property, as used in this clause, includes all of the below-described items acquired or produced by the Contractor that are or should be allocable or properly chargeable to this contract under sound and generally accepted accounting principles and practices.

- (iii) Nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment, and other similar manufacturing aids, title to which would not be obtained as special tooling under subparagraph (ii) above; and
- (iv) Drawings and technical data, to the extent the Contractor or subcontractors are required to deliver them to the Government by other clauses of this contract.

(3) Although title to property is in the Government under this clause, other applicable clauses of this contract, e.g., the termination clauses, shall determine the handling and disposition of the property.

(4) The Contractor may sell any scrap resulting from production under this contract without requesting the Contracting Officer's approval, but the proceeds shall be credited against the costs of performance.

(5) To acquire for its own use or dispose of property to which title is vested in the Government under this clause, the Contractor must obtain the Contracting Officer's advance approval of the action and the terms. The Contractor shall (i) exclude the allocable costs of the property from the costs of contract performance, and (ii) repay to the Government any amount of unliquidated progress payments allocable to the property. Repayment may be by cash or credit memorandum.

(7) The terms of this contract concerning liability for Government-furnished property shall not apply to property to which the Government acquired title solely under this clause.

(e) Risk of loss. Before delivery to and acceptance by the Government, the Contractor shall bear the risk of loss for property, the title to which vests in the Government under this clause, except to the extent the Government expressly assumes the risk. The Contractor shall repay the Government an amount equal to the unliquidated progress payments that are based on costs allocable to property that is lost (see 45.101).

(f) Control of costs and property. The Contractor shall maintain an accounting system and controls adequate for the proper administration of this clause.

(g) Reports, forms, and access to records.

(1) The Contractor shall promptly furnish reports, certificates, financial statements, and other pertinent information (including estimates to complete) reasonably requested by the Contracting Officer for the administration of this clause. Also, the Contractor shall give the Government reasonable opportunity to examine and verify the Contractor's books, records, and accounts.

(2) The Contractor shall furnish estimates to complete that have been developed or updated within six months of the date of the progress payment request. The estimates to complete shall represent the Contractor's best estimate of total costs to complete all remaining contract work required under the contract. The estimates shall include sufficient detail to permit Government verification.

(3) Each Contractor request for progress payment shall:

(i) Be submitted on Standard Form 1443, Contractor's Request for Progress Payment, or the electronic equivalent as required by agency regulations, in accordance with the form instructions and the contract terms; and

(ii) Include any additional supporting documentation requested by the Contracting Officer.

(h) Special terms regarding default. If this contract is terminated under the Default clause, (i) the Contractor shall, on demand, repay to the Government the amount of unliquidated progress payments, and (ii) title shall vest in the Contractor, on full liquidation of progress payments, for all property for which the Government elects not to require delivery under the Default clause. The Government shall be liable for no payment except as provided by the Default clause.

(i) Reservations of rights.

(1) No payment or vesting of title under this clause shall (i) excuse the Contractor from performance of obligations under this contract or (ii) constitute a waiver of any of the rights or remedies of the parties under the contract.

(2) The Government's rights and remedies under this clause (i) shall not be exclusive but rather shall be in addition to any other rights and remedies provided by law or this contract and (ii) shall not be affected by delayed, partial, or omitted exercise of any right, remedy, power, or privilege, nor shall such exercise or any single exercise preclude or impair any further exercise under this clause or the exercise of any other right, power, or privilege of the Government.

(j) Financing payments to subcontractors. The financing payments to subcontractors mentioned in paragraphs (a)(1) and (a)(2) of this clause shall be all financing payments to subcontractors or divisions, if the following conditions are met:

(1) The amounts included are limited to

(i) The unliquidated remainder of financing payments made; plus

(ii) Any unpaid subcontractor requests for financing payments.

(2) The subcontract or interdivisional order is expected to involve a minimum of approximately 6 months between the beginning of work and the first delivery; or, if the subcontractor is a small business concern, 4 months.

(3) If the financing payments are in the form of progress payments, the terms of the subcontract or interdivisional order concerning progress payments

(i) Are substantially similar to the terms of this clause for any subcontractor that is a large business concern, or this clause with its Alternate I for any subcontractor that is a small business concern;

(ii) Are at least as favorable to the Government as the terms of this clause;

(iv) Are in conformance with the requirements of FAR 32.504(e); and

(v) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if

(A) The Contractor defaults; or

(B) The subcontractor becomes bankrupt or insolvent.

(4) If the financing payments are in the form of performance-based payments, the terms of the subcontract or interdivisional order concerning payments

(i) Are substantially similar to the Performance-Based Payments clause at FAR 52.232-32 and meet the criteria for, and definition of, performance-based payments in FAR Part 32;

(ii) Are in conformance with the requirements of FAR 32.504(f); and

(iii) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if

(A) The Contractor defaults; or

(B) The subcontractor becomes bankrupt or insolvent.

(5) If the financing payments are in the form of commercial item financing payments, the terms of the subcontract or interdivisional order concerning payments

(iii) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if

(A) The Contractor defaults; or

(B) The subcontractor becomes bankrupt or insolvent.

(6) If financing is in the form of progress payments, the progress payment rate in the subcontract is the customary rate used by the contracting agency, depending on whether the subcontractor is or is not a small business concern.

(7) Concerning any proceeds received by the Government for property to which title has vested in the Government under the subcontract terms, the parties agree that the proceeds shall be applied to reducing any unliquidated financing payments by the Government to the Contractor under this contract.

(8) If no unliquidated financing payments to the Contractor remain, but there are unliquidated financing payments that the Contractor has made to any subcontractor, the Contractor shall be subrogated to all the rights the Government obtained through the terms required by this clause to be in any subcontract, as if all such rights had been assigned and transferred to the Contractor.

(9) To facilitate small business participation in subcontracting under this contract, the Contractor shall provide financing payments to small business concerns, in conformity with the standards for customary contract financing payments stated in FAR 32.113. The Contractor shall not consider the need for such financing payments as a handicap or adverse factor in the award of subcontracts.

(k) Limitations on undefinitized contract actions. Notwithstanding any other progress payment provisions in this contract, progress payments may not exceed 80 percent of costs incurred on work accomplished under undefinitized contract actions. A contract action is any action resulting in a contract, as defined in subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes. This limitation shall apply to the costs incurred, as computed in accordance with paragraph (a) of this clause, and shall remain in effect until the contract action is definitized. Costs incurred which are subject to this limitation shall be segregated on Contractor progress payment requests and invoices from those costs eligible for higher progress payment rates. For purposes of progress payment liquidation, as described in paragraph (b) of this clause,

Separate limits may be specified for separate actions.

In the event that the Government requires an audit or other review of a specific progress payment request to ensure compliance with the terms and conditions of the contract, the designated payment office is not compelled to make payment by the specified due date. Progress payments are considered contract financing and are not subject to the interest penalty provisions of the Prompt Payment Act.

(m) Progress payments under indefinite-delivery contracts. The Contractor shall account for and submit progress payment requests under individual orders as if the order constituted a separate contract, unless otherwise specified in this contract.

K-13                      52.209-13                      VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS--CERTIFICATION                      NOV/2021  
(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined at FAR 2.101.

(b) Certification. [Offeror shall check either (1) or (2).]

\_\_\_\_\_ (1) The Offeror certifies that--  
  
(i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/> ; and

(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). \_\_\_\_\_ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

- (i) An inability to certify compliance.
- (ii) An inability to conclude compliance.
- (iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to [NDAA1290Cert@state.gov](mailto:NDAA1290Cert@state.gov). To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless--

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C.2593e(b).

Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that--

(1) It [ ] is [ ] is not a foreign person; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. The Government will not assume the offeror possesses any capability, understanding, or commitment not specified in its proposal. It is an offeror's responsibility to submit a well-written proposal, with adequately detailed information, which clearly demonstrates an understanding of and the ability to comply with the solicitation requirements to allow for a meaningful evaluation. The Government does not assume the duty to search for data to cure problems it finds in proposals.

An offeror is defined as an entity competing independently that does not share a common parent with any other offeror or does not have a parent/subsidiary relationship with any other offeror, or is not affiliated with any other offeror. For the purposes of Section L.2.3 (Single Proposal Submission), the Government will consider affiliation to exist if associated business concerns or individuals, directly or indirectly, either controls the other or can control the other (control can exist through common ownership, common management, or a contractual relationship such as a joint venture, where members have the power to control performance of the contract); or a third party controls or can control both.

L.2.4 Organizational Conflict of Interest

L.2.4.1 The provisions of FAR 9.5, Organizational Conflict of Interest (OCI), apply to any award under this Request for Proposal (RFP). Potential offerors should review their current and planned participation in any other Government contracts, subcontracts, consulting, or teaming arrangements where they may be in a position of actual or perceived bias or unfair competitive advantage.

L.2.4.2 Offerors should disclose any potential OCI situations to the Contracting Officer as soon as identified including prior to proposal submission. The disclosure should include the facts and an analysis of the actual or perceived conflict and a recommended approach(s) to neutralize or mitigate the potential conflict. The Contracting Officer will promptly respond to resolve any potential conflicts.

L.2.5 Restriction On Disclosure and Use of Data.

Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall:

L.2.5.1 Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed - in whole or in part - for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of - or in connection with - the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Governments right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

L.2.5.2 Mark each sheet of data it wishes to restrict with the following legend:

**Name of Offeror or Contractor:**

**L.3 All or None**

Offers in response to this solicitation must be submitted for all the requirements identified in the solicitation. Offers submitted for less than all the requirements called for by this solicitation may be rejected or ineligible for award. Proposals that contain alternative terms and conditions may be considered as taking exception to the requirements of the solicitation. See Section M.2.

**L.4 Evaluation Factors and Volumes**

Offeror proposals shall address the following Factors and Administrative Volume:

- a. Volume I                      Past Performance Factor
- b. Volume II                    Price Factor
- c. Volume III                   Administrative

**L.4.1 Volume I Past Performance Factor**

For the Past Performance Factor, provide information for a total of up to two Recent Contracts performed by the offeror as the prime contractor, that the offeror considers to have relevance. These may include foreign, federal, state, local and private industry contracts. The burden of providing thorough and complete past performance information remains with the offeror. It is the offeror's responsibility to submit detailed and complete information so the Government may evaluate its Past Performance volume. The Government does not assume the duty to search for data to cure problems it finds in proposals. While the Government may elect to consider data obtained from internal and external sources other than the proposal, the burden to provide thorough and complete past performance information rests with the offeror. The below instructions are provided to advise offerors as to the information required by the Government to assess the contractors Recent and Relevant past performance. Since this information constitutes a basis of the Government's review, it is imperative that the offeror present its past performance in a clear and complete manner. Failure to provide the information requested under paragraph L.4.1.3 and L.4.1.4 (if applicable) below may result in an assessment that the offeror does not possess a record of Recent and Relevant past performance.

For the purpose of this Factor, a Contract is defined as a written instrument that requires the performance of a distinct effort and demonstrates the distinct effort was actually performed. Written instruments containing supplies or services that can be ordered but typically do not demonstrate actual performance, such as Indefinite Delivery Contracts (FAR 16.5), Basic Ordering Agreements (BOA), Blanket Purchase Agreements (BPA), and Federal Supply Schedules (FSS) do not meet the definition of a Contract. Written instruments considered to demonstrate actual performance may include a single task or delivery order, a single work directive, or a single definite quantity contract provided it demonstrates a distinct effort was actually performed. An offeror may submit, or the Government may require, written instruments that enhance the Governments understanding of the distinct effort actually performed if it is not identified on the Contract itself. It is incumbent upon the offeror to demonstrate that a distinct effort was actually performed.

**L.4.1.1 Recent Contract Deliveries performed within 5 years of the date of issuance of this RFP.**

**L.4.1.2 Relevant Contracts are those comparable in scope and magnitude of effort and complexity to the following statement of work requirements:**

- i. Fabricate parachute system, to include canopy assembly and deployment bag to a Government technical data package, with a quantity of 550 units, delivered 50 per month, within a consecutive 12 month time period.

**L.4.1.3 Contract Information: Refer to the definition of a Contract above (L.4.1). The offerors proposal shall substantiate what distinct effort was required and actually performed under each of the proposed Contract(s). For each Contract(s) submitted, provide the following information:**

- (a) Prime Contractor name and address;
- (b) Contract Number (and delivery/task order number if applicable);
- (c) Contract Type;
- (d) Total Value of the Contract (beginning & ending value);
- (e) Delivery or Performance Schedule;
- (f) Government or private industry contracting activity address, telephone number and e-mail;
- (g) Procuring Contracting Officers (PCO) and/or Contract Specialists name, or point of contact for private industry entity responsible for signing or administering the Contract, telephone number and e-mail;
- (h) Government (DCMA) or private industry administrative contracting officer (ACO), contracting officers representative (COR),

performance certifier, and/or quality assurance representative (QAR), name, telephone number and email;

(i) Specify the Government or Contractor Point(s) of Contact for which the Questionnaire was sent, and provide the date(s) it was sent.

(j) A description of the work performed by the offeror, which shall include a narrative describing the similarities between (1) the relevant work performed under the statement of work requirements of the offerors cited Contract(s) and (2) the statement of work requirements identified in L.4.1.2. In its narrative, the offeror shall specify the location in the cited Contracts statement of work (to include paragraph and page number) that substantiates the relevant work performed;

(k) Contract period of performance;

(l) Provide a brief self-assessment of Contract performance. The self-assessment must address performance to meet Technical and Schedule requirements within estimated costs (for cost type contracts); and

(m) Copy of the complete Performance Work Statement or Scope of Work for each of the submitted Contracts. If the proposed Contract was issued under or in connection with a related written instrument (e.g. Indefinite Delivery Contracts, BOA, BPA, FSS) and the details of the distinct effort actually performed needed to establish relevancy on the proposed Contract are further defined within the terms and conditions (e.g. statement of work) of that related written instrument, provide that information and any other information necessary to establish this instruments relationship to the proposed Contract. (These documents can be submitted as stand-alone attachments within the proposal volume).

L.4.1.4 Associated Entity, Predecessor Company, and Joint Venture. As stated above (L.4.1), only Contracts performed by the named offeror will be considered, however the Government may consider the past performance of an associated entity, a predecessor company, or joint venture as explained below.

L.4.1.4.1 Associated Entity. The Government may consider the past performance of an associated entity if the offeror successfully demonstrates meaningful involvement by the associated entity in the proposed effort.

A Contract will not be considered unless the offeror successfully establishes meaningful involvement by the associated entity in the proposed effort.

L.4.1.4.2 Predecessor Company. The Government may consider the past performance of a predecessor company if the offeror demonstrates the experience of the predecessor company is reasonably predictive of the offerors performance under the proposed effort.

a. A predecessor company may include a company which was acquired by the offeror or merged with the offeror. It may also include other instances where the predecessor company was reorganized, restructured, or otherwise altered. A predecessor company does not include an entity which remains separate and distinct from the offeror. The offeror shall provide to the Government a narrative that explains the offerors relationship to the predecessor company. The offeror shall support the narrative with documentation evidencing the offerors status as the successor company.

b. The offeror shall provide to the Government a narrative that explains why the predecessors past performance is predictive of the offerors performance under the proposed effort. Evidence may include, but is not limited to, continuity of operations such as the continued employment of the predecessors employees and the transfer of assets including buildings, furnishings, and fixtures.

L.4.1.4.3 Individual Partners of a Joint Venture. If the offeror is a Joint Venture, the Government may consider past performance of each partner of the Joint Venture and any work performed by the Joint Venture itself previously. The offeror must successfully demonstrate meaningful involvement by the partner to the proposed effort.

a. The offeror shall provide to the Government a narrative that discloses the individual partners of the Joint Venture and shall provide documentation evidencing the Joint Venture.

b. The offeror shall provide to the Government a narrative that explains the meaningful involvement the Joint Venture partner will provide to the proposed effort. Meaningful involvement may include a description of the partners resources, such as its workforce, facilities, and/or other resources that will be provided or relied upon in the proposed effort. A Contract will not be considered unless the offeror successfully establishes meaningful involvement by the partner in the proposed effort.

(iii) The FAT report and all supporting documentation should be submitted by electronic media and should accompany the offerors proposal. If the FAT report and supporting documentation cannot be transmitted by electronic media, the offeror shall contact the PCO for further instruction.

(b) Note that if a waiver is granted to the successful offeror, an accelerated delivery schedule will apply. See Section F.

(c) Note: Cost considerations shall apply for approving a waiver or a portion thereof of a First Article Test.

**L.9 Army Contract Writing System (ACWS) Transition Information for Offerors**

(a) The Army Contracting Enterprise (ACE) is in the process of deploying new solicitation and contract writing software to Army contracting offices worldwide. Known as the Army Contract Writing System (ACWS), this modern software suite will soon replace most existing Army contract writing systems, including the system used to create and release this Solicitation.

(b) During this transition period, Offerors are hereby advised:

(1) The Contracting Office may use any combination of contract writing systems to create and release documents related to this solicitation (e.g. solicitation amendments and awards, if any). Due to this:

- i. This solicitation may contain different offer submission instructions than other solicitations released by the same Contracting Office (e.g. requiring offer submission via the PIEE Solicitation Module vs. e-mail). Offerors should review all offer submission instructions contained in the solicitation documents and direct any questions or concerns to the Contract Specialist or Contracting Officer.
- ii. If the Contracting Office switches contract writing systems prior to award, documents you receive from the Contracting Officer or view on SAM.gov or other forums may appear noticeably different than the initial solicitation or previous solicitations or awards from the same Contracting Office. This is normal and expected.
- iii. A change between contract writing systems may cause important information concerning solicitation response (amendments) or accepted terms (awards) to take on different formatting or appear in different parts of later documents issued. Offerors shall review all documents carefully to locate this important information and direct any questions or concerns to the Contract Specialist or

Name of Offeror or Contractor:

Contracting Officer.

(2) The Government does not intend to use the transition between contract writing systems to effect any changes to solicitation or award terms and conditions without accompanying document narratives explicitly stating such changes are deliberate and desired. While the Contract Specialist and Contracting Officer will take care to minimize or eliminate any inadvertent changes when adapting to the new contract writing software, you, as the Offeror, may still be the first to spot such errors. Therefore, Offerors shall:

- i. Notify the Contracting Officer immediately if any observed changes, removals, or additions affect your award eligibility, violate or alter existing quote/proposal terms, or could affect Contract performance post-award.
- ii. Take special care to ensure all fill-in Clauses are populated and remain populated across documents received from the Contracting Office throughout the Solicitation and Award process.
- iii. Contact the Contracting Officer listed on the first page of the solicitation or solicitation amendment for guidance if you notice or suspect any inadvertent change has occurred between document issuances.

(3) The Contracting Officer will correct problems affecting award documents (if any) via bilateral modification, at no cost to the Contractor. Any such modification will reconcile the award with the latest version of this solicitation reflecting deliberate action by the Contracting Officer (e.g. the first issuance if no amendments, or the latest amendment with accompanying narratives), inclusive of any documented pre-award negotiations or accepted supplemental offer terms.

(4) In the unlikely event a network disruption, contract writing system error, or financial system error threatens timely award of the requirement set forth in this solicitation, the Contracting Officer:

- i. May elect to use alternative mechanisms to obligate funds and allow work or deliveries to legally begin to the benefit of, and with legal protection for, both parties.
- ii. Will incorporate the latest version of this Solicitation into such mechanisms to serve as a framework for contract execution until any such system problems are resolved.
- iii. Will ensure any action taken does not conflict with the stated offer evaluation and award methodology of this requirement.
- iv. Will issue a complete, properly-formatted award accurately reflecting this requirement and all applicable terms and conditions once systems return to normal.

SECTION M - EVALUATION FACTORS FOR AWARD

M.1 Basis of Award

M.1.1 Overview. The Government intends to award approximately three Firm-Fixed Price multiple-award indefinite delivery, indefinite-quantity (MA IDIQ) contracts, for G-16 Cargo Parachute and Supplies. The Government reserves the right to make no award(s) as a result of this solicitation. The Government intends to make multiple awards that represent the Best Value to the Government to those Offerors who satisfy all of the responsibility criteria set forth in FAR 9.104 and whose proposal represents the best value to the Government as described below.

M.1.1.1 There are two Evaluation Factors:

- a. Volume I                      Past Performance Factor
- b. Volume II                     Price Factor

The relative order of importance of these Factors are described in Section M.4 below.

M.1.1.2 Proposal selection will be made utilizing the source selection trade-off process, considering the evaluation Factors and their relative order of importance (see Section M.4), to identify the proposal which represents the best value and is most advantageous to the Government. The Government will weigh the evaluation factors (other than the Cost/Price Factor) against the final evaluated price to the Government. As part of the best value determination, the relative strengths, weaknesses, and risks of each proposal shall be considered in selecting the offer that is most advantageous and represents the best overall value to the Government. The Government reserves the right to choose not to award a contract if such action is in the Governments best interest.

M.1.1.3 In making the award decision, the Government will review proposals to determine if any other price adjustments (beyond the GFP Price adjustment and transportation costs that are already included in the total evaluated price) are required IAW the FAR, DFARS, or clauses or provisions contained within this solicitation. If an additional price adjustment is determined to be applicable, then the Government will develop a final price for those offerors impacted by the adjustment(s) and base the final award decision on this final price. When FAR 52.219-4 is included in the RFP and a HUBZone price adjustment is applicable, then all other price adjustments described in the solicitation shall be applied before the application of the HUBZone price adjustment.

M.1.1.4 Importance of Price. Award will be made to the offeror(s) whose proposal represents the best value to the Government and is otherwise eligible for award. This may not be the offeror(s) with the lowest evaluated price. However, the closer offeror's evaluations are to each other in those Factors other than the Price Factor, the more important price becomes in the decision. Notwithstanding the relative order of importance of the evaluation Factors stated herein, price may be controlling when:

- a. Proposals are otherwise considered approximately equal in non-price factors; or
- b. An otherwise superior proposal is unaffordable; or
- c. The advantages of a higher rated, higher priced proposal are not considered to be worth the price premium.

M.1.2 Eligibility for Award. Award will only be made to the offeror(s) who is/are eligible for award. To be eligible for award:

- a. The offeror must be determined responsible (See Section M.3.6)
- b. The proposal must not contain a Deficiency(s) (per FAR Part 15.001); and
- c. The offeror must be registered in the System for Award Management (SAM) - see provision 52.204-7, and must be a self-certified U.S. small business concern for North American Industry Classification System (NAICS) code identified in this solicitation.

M.2 Rejection of Offers

M.2.1 The Government may reject any proposal if in the Government's best interest at any time after receipt of proposal. Examples include, but are not limited to, the following proposal conditions:

- a. The proposal fails to meaningfully respond to the instructions in Section L of this solicitation (e.g. a proposal provides some data but omits significant material data and information required by Section L, the offeror fails to submit pricing Attachment 0001, Pricing Workbook, in accordance with the instructions, the proposal fails to follow key proposal instructions or format requirements in Section L, etc.).
- b. A proposal merely offers to perform work according to the solicitation terms or fails to present more than a statement indicating its capability to comply with the solicitation terms and does not provide support and elaboration as specified in Section L of this solicitation.
- c. The proposal proposes exceptions to the RFP requirements, attachments, exhibits, enclosures, or solicitation terms and conditions.

<p><b>CONTINUATION SHEET</b></p>	<p><b>Reference No. of Document Being Continued</b>  W912CH-24-R-0080  <b>PIIN/SHIN</b> <b>MOD/AMD</b></p>	<p><b>Page</b>154 <b>of</b> 156</p>
<p><b>Name of Offeror or Contractor:</b></p>		

d. The proposal contains one or more Organizational Conflicts of Interest (OCIs) that cannot be avoided or mitigated. Refer to Section L paragraph L.2.4 of this solicitation, "Organizational Conflict of Interest."

e. The proposal is unbalanced as to price. See Section M.4.2.5.

f. The proposal submitted is for less than all the requirements called for by the solicitation.

g. The proposals acceptance period does not meet the Governments required minimum acceptance period, or the offeror fails to provide a proposal acceptance period (Refer to Section L.1.2).

h. The proposal is not in English (American Standard) or in US Dollars.

i. The offeror is not a self-certified U.S. small business concern to the size standard for the North American Industry Classification System (NAICS) code identified in this solicitation in SAM.

M.3 Source Selection Process

M.3.1 Compliance Review. After receipt of proposals, but prior to the evaluation process, the Government will perform a compliance review of the offerors proposal to determine the extent of compliance to the solicitation instructions.

M.3.2 Evaluation Process. Selection of the successful offeror will be made following an assessment of each proposal not otherwise rejected, based on the response to the information called for in Section L of this RFP, and against the solicitation requirements and the evaluation criteria described herein. Proposals not otherwise rejected will be evaluated as specified herein, to include developing narrative support for the evaluation conclusions under each Factor.

M.3.3 Source Selection Authority. The Source Selection Authority (SSA) is the official designated to direct the source selection process and select the offeror for contract award.

M.3.4 Source Selection Evaluation Board (SSEB). An SSEB has been established by the Government to evaluate proposals in response to this solicitation. The SSEB is comprised of technically qualified individuals who have been selected to conduct this evaluation in accordance with the evaluation criteria for this solicitation. All proposals not otherwise rejected will be given careful, full and impartial consideration by a team of Government personnel in the evaluation, pursuant to the criteria in this solicitation.

M.3.5 Award without Discussions. This RFP includes FAR Provision 52.215-1 Instructions to Offerors - Competitive Acquisition in Section L which advises offerors that the Government intends to make award without conducting discussions. Where awards will be made without discussions, exchanges with offerors are limited to Clarifications as defined in FAR 15.306(a). Therefore, the offerors initial proposal should contain the offerors best terms from a Price and non-Price Factor standpoint. However, under FAR 52.215-1(f)(4), the Government reserves the right to hold discussions, if necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

M.3.6 Determination of Responsibility. Per FAR Part 9.103, a contract will be placed only with the offeror that the Contracting Officer determines to be responsible. Prospective offeror(s), in order to be eligible for award for this acquisition, must be able to demonstrate that they meet standards of responsibility set forth in FAR Part 9.104, or refer the matter to the SBA per FAR 19.602. In addition, the Government may assess the offeror's financial and management capabilities to meet the solicitation requirements. The Government reserves the right to conduct a Pre-Award Survey on any or all offeror(s) or their subcontractors to aid the Contracting Officer in the evaluation of each offeror's proposal and ensure that a selected offeror is responsible. No award can be made to an offeror who has been determined to be not responsible by the Contracting Officer. To make sure that you meet the responsibility criteria at FAR Part 9.104, the Government may:

a. Arrange a visit to your facility and perform a necessary Pre-Award Survey. The offeror's refusal to authorize the Government to visit the offerors facility may result in a determination that the offeror is not responsible.

And/or

b. Request an offeror provide financial, technical, production, or managerial background information. If the requested information is not submitted within seven calendar days from the date of the receipt of the request, or if an offeror refuses the Government access to its facility, the Government may determine the offeror non-responsible. If the Government visits the offeror's facility, please ensure that current data relevant to the proposal is available for Government personnel to review.

M.3.7 Consistency. Each volume of the offerors proposal shall be consistent with the other proposal volumes and shall demonstrate the understanding and ability to perform according to the statement of work of the contract. The offeror should provide supporting documentation in sufficient detail to permit a complete evaluation of the proposal. The Government may conduct a crosswalk between the

**Name of Offeror or Contractor:**

information provided in offerors proposal volumes to assess whether the offeror submits consistent proposal information.

**M.4 Evaluation Criteria**

There are two Evaluation Factors:

- a. Volume I                      Past Performance Factor
- b. Volume II                     Price Factor

The relative order of importance of the two factors is as follows:

Past Performance is significantly more important than the Price Factor.

**M.4.1 Factor 1: Past Performance**

M.4.1.1 The Government will conduct a Performance Confidence Assessment to establish a Confidence Assessment Rating for each offeror. The Confidence Assessment Rating assigned will be based on the offerors Recent and Relevant performance record and the expectation that the offeror will successfully perform the required effort described in L.4.1.2.

M.4.1.2 Contracts submitted in the Past Performance Factor volume of the offeror's proposal will not be considered if the Government determines them to be not Recent, not Relevant, or lacking any credible past performance information. Offerors without a record of Recent and Relevant past performance information upon which to base a meaningful confidence assessment will be rated as "Neutral Confidence", which is neither favorable nor unfavorable.

M.4.1.3 The offeror may also be evaluated on past contract performance information based on internal Government or private source information and reserves the right to use any information received as part of its evaluation. The Government may contact any of the references the offeror provides, and reserves the right to use any information received as part of its evaluation.

M.4.1.4 Past performance which is identified in the offerors Past Performance Factor volume but is not supported with the information requested in Section L may be determined not Relevant. In addition, if any other proposal volume indicates the Government will not realize the benefit of the cited past performance during contract performance, then the cited past performance may be determined not Relevant.

M.4.1.5 In evaluating the offeror's performance history, the Government may compare the offeror's deliveries or performance to the Contract's original delivery or performance schedule, unless the delay was Government-caused. Schedule extensions that were the fault of the offeror, even if consideration was provided, may be counted against the offeror.

**M.4.2 Factor II: Price Factor**

M.4.2.1 The Price Factor evaluation will result in a determination of the Total Evaluated Price. The Government will also evaluate the offerors price proposal for price reasonableness and unbalanced pricing.

M.4.2.2 Total Evaluated Price: The Total Evaluated Price equals the sum of the following:

- (a) The total proposed price as calculated in the Summary Worksheet of Attachment 0001, Pricing Workbook; and
- (b) If applicable, any other price adjustments, for evaluation purposes only, that are required in accordance with the (i) FAR; (ii) DFARS; or (iii) RFP (to include RFP Attachments).

M.4.2.3 Weighted Average Unit Price: For each CLIN with range pricing, the Government will calculate a weighted average unit price by first multiplying the unit prices proposed for each quantity range by the weighting percentages as stated in Attachment 0001. Weighted average unit prices will be the summation of the proposed unit prices for each range multiplied by the weighting percentages. The proposed price of each such CLIN will then be based on multiplying the weighted average unit price by the CLIN quantities as stated in Attachment 0001.

M.4.2.4 Price Reasonableness: The Government will evaluate whether or not the offerors proposed price is reasonable. A price is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. The Government may make a determination of reasonableness by any means allowable under FAR 15.404-1.

M.4.2.5 Unbalanced Pricing: The Government will evaluate the Offerors proposal for unbalanced pricing. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items or ranges is significantly over- or understated as indicated by the application of cost and price analysis techniques. Offerors are cautioned that a proposal the Government assesses to be unbalanced as to price, may either be rejected or determined unacceptable for award. See FAR 15.404-1(g) for more information on unbalanced pricing.

M.5 EVALUATION FACTORS FOR FIRST ARTICLE TEST REQUIREMENT - REQUIREMENTS CONTRACT/INDEFINITE QUANTITY CONTRACT

(a) If the offeror submits a request for waiver of First Article Approval but fails to comply with the requirements of paragraph L.8 entitled PROVISION FOR WAIVER, the requested waiver may not be granted. If the waiver is not granted, more favorable alternative offers of price or delivery, conditioned upon the granting of a waiver, will not be considered in the evaluation process

(b) DELIVERY EVALUATION FACTORS.

(1) As specified in this solicitation, the Government reserves the right to waive the requirement entitled FIRST ARTICLE APPROVAL (52.209-3 or 52.209-4). In the event of a waiver, the Government will compute a delivery schedule for the first delivery order issued hereunder by excluding all lead times that would be included if first article approval were required. However, in no event shall such accelerated delivery schedule for the first delivery order be considered as an evaluation factor for award, even if such schedule would be more advantageous to the Government. (Note that delivery orders subsequent to the first order shall have delivery schedules as specified in individual orders, or as specified in Section B or F herein, regardless of whether First Article Approval applied initially. Note further that, absent a waiver, the Government expects to require First Article Approval only once during the course of this contract--in conjunction with the first delivery order to be issued hereunder. However, the Government reserves the right to require additional first article testing if the Contractor changes or moves the production facility at which the contract item is manufactured, or submits a significant configuration change in the form of an Engineering Change Proposal (ECP/VECP) or a Request for Variance or Request for Waiver (RFV/RFW), during or after performance on the first delivery order.)

(2) If an offeror requests waiver of First Article Approval but takes exception to the resulting delivery schedule for the first delivery order as described above, the requested waiver will not be granted. In consequence, any award to that offeror shall include all First Article Approval requirements, and the delivery schedule for the first delivery order shall include the appropriate first article lead times.

(c) PRICE EVALUATION FACTORS.

(1) As specified in this solicitation, the Government reserves the right to waive the requirement entitled FIRST ARTICLE APPROVAL (52.209-3 or 52.209-4), and subtract the price of the proposed First Article Test (at Section B, Item 0141) from the proposal of offerors who elect to seek such a waiver. In the event that the offeror requests and receives a waiver of First Article Approval requirements, the price for such testing, as identified by the offeror in Section B, Item 0141, shall be deducted from the total price otherwise cited for the materiel herein solicited. The offer will then be evaluated for award at the resulting alternate price.

(2) If the offeror requests a waiver of First Article Approval requirements, but fails to separately identify the cost of First Article Testing in Section B, Item 0141 of this solicitation, the Government reserves the right to evaluate the offer based upon the price for 0011, and to require that offeror perform on the contract at such price whether or not the First Article requirement is waived, at no additional cost to the Government.

(3) If the offeror requests but is not granted a waiver of First Article Approval, evaluation for award will be based upon the full amount entered for 0011: the amount entered for item 0141 will not be deducted by the Government.
